(57)Abstract:

PROBLEM TO BE SOLVED: To prevent the generation of a reception error and to improve transmission quality at the time of transmitting and receiving facsimile data through a network.

SOLUTION: A format conversion part 33 converts received facsimile data to electronic mail for respective pages. A destination management part 34 issues management numbers for the respective facsimile data, also issues page numbers for the respective pages and registers them to a management table 35. The format conversion part 34 imparts the management number and the page number to the title of the electronic mail corresponding to the management table 35.
